

BESC Coin White Paper

Builders Edge Services & Construction (BESC LLC)

Abstract

BESC Coin is a cryptocurrency that integrates blockchain technology with real-world revenue from Builders Edge Services & Construction (BESC LLC). This innovative token offers profit-sharing derived from actual business operations, creating tangible value for holders. BESC LLC has achieved \$310,000 in profit within just five months of operation, supported by bank statements and paid customer checks, ensuring transparency and credibility. With six full-time employees, BESC LLC is poised for growth and expansion, driving both the success of the business and value for token holders.

1. Introduction

1.1 About BESC LLC

Builders Edge Services & Construction (BESC LLC) is a construction and home improvement company specializing in residential and commercial projects. In its first five months of operation, BESC LLC has delivered over \$310,000 in profits, showcasing rapid growth and high demand for its services. Bank statements and paid customer checks are available to validate this performance. The company currently employs six skilled professionals who deliver quality and reliability in every project.

1.2 Vision

To revolutionize the construction industry by combining real-world profitability with blockchain technology, enabling a transparent profit-sharing model that benefits investors and drives business expansion.

1.3 Purpose of BESC Coin

BESC Coin is designed to:

- Provide token holders with quarterly profit-sharing distributions tied directly to BESC LLC's real-world revenue.
- Facilitate discounted services for customers paying with BESC Coin.
- Accelerate the growth of BESC LLC through reinvestment of token-generated capital.

2. Problem Statement

2.1 Challenges in Construction and Cryptocurrency

- **Construction Industry:** Limited funding options for expansion and modernization, coupled with inefficiencies in traditional financial systems.
- **Cryptocurrency Market:** Lack of tangible backing for many tokens, leading to speculative and volatile investments.

2.2 The Solution

BESC Coin bridges these gaps by connecting cryptocurrency with real-world, revenue-generating construction services. It offers investors a secure and transparent ecosystem with consistent returns while empowering BESC LLC to grow its operations and customer base.

3. Key Features of BESC Coin

3.1 Real-World Revenue Integration

- **\$310,000 in Profits in Five Months:** Proven financial success with verifiable bank statements and customer checks.
- **15% of Quarterly/Monthly Profits:** Allocated to the BESC Coin Reward Pool for token holders and NFT holders.

3.2 Profit Sharing

- Token holders and NFT holders receive quarterly/Monthly profit-sharing distributions proportional to their holdings.
- Rewards are distributed in stablecoins or BESC Coins to minimize market volatility.

3.3 Discounts for Clients

- Customers paying with BESC Coin enjoy up to 10% discounts on construction and renovation services.

3.4 Blockchain Transparency

- Every profit-sharing distribution, project milestone, and financial transaction is recorded on the blockchain.
- Smart contracts automate reward distribution, ensuring trust and efficiency.

3.5 Deflationary Tokenomics

- A portion of BESC Coins is burned after quarterly profit-sharing distributions, reducing supply and increasing scarcity.

4. Tokenomics

4.1 Total Supply

Fixed at 920,000 BESC Coins.

4.2 Initial Allocation

TBD distribution among V1 Holders, investors when live, and expansion tokens that are locked.

4.3 Revenue Streams

- **Primary:** Revenue from BESC LLC's construction, renovation, and snow plowing services as well Centralized Exchange (Builders Exchange).
- **Secondary:** Partnerships with subcontractors and material suppliers adopting BESC Coin for payments.

4.4 Profit Allocation

- **30%:** Reinvestment in equipment and business expansion to increase future profitability.
- **25%:** Workforce development and training.
- **30%:** Marketing and customer engagement campaigns.
- **15%:** Blockchain infrastructure and operational improvements.

5. Roadmap

Phase 1: Foundation (0 to 6 Months)

- Develop blockchain infrastructure and smart contracts.
- Dividend Dapp
- Launch the coin.
- Launch CEX to public
- Secure partnerships with subcontractors and suppliers.
- Marketing campaigns
- Begin monthly/quarterly profit-sharing distributions.
- Release CEX mobile APP

Phase 2: Integration (6 to 12 Months)

- Enable BESC Coin as a payment option for BESC LLC services.
- Expand employee base and service capabilities.
- Release V2 of CEX
- Market to list new coins on CEX
- Partner with other CEX platforms to expand reach
- First BESC expansion

Phase 3: Expansion (12 to 24 Months)

- Drive adoption across real estate and adjacent industries.
- Invest in additional equipment to scale operations.
- Expand BESC Coin ecosystem to include subcontractors and suppliers globally.
- More Updates Soon

6. Centralized Exchange (CEX) Integration

6.1 Overview

The BESC CEX is designed to expand the utility of BESC Coin, providing token holders with additional ways to earn passive income and access exclusive opportunities.

6.2 Features

1. **Staking for Passive Income:**
 - Token holders can stake their BESC Coins to earn a share of the transaction fees generated on the platform.
1. **ICO Rewards:**
 - Staked tokens earn bonus coins from new projects conducting ICOs on the exchange.
1. **Seamless Trading:**
 - Users can trade BESC Coins and other cryptocurrencies with low fees and high security.
1. **Real-World Integration:**
 - BESC Coins staked on the CEX retain their real-world value connection through Builders Edge Services & Construction's profit-sharing model.

6.3 Benefits of Staking on the CEX

1. **Earn Passive Income:**
 - A percentage of transaction fees is distributed to stakers.
1. **Access New Projects:**
 - Stakers gain exclusive access to tokens from partnered ICOs.
1. **Boost Ecosystem Value:**
 - Increased utility and staking demand drive long-term value growth.

7. Security and Compliance

7.1 Regulatory Compliance

- Full adherence to cryptocurrency and financial regulations, including SEC guidelines.
- Periodic audits to ensure compliance and investor security.

7.2 Smart Contracts

- Automate and secure profit-sharing distributions, eliminating intermediaries.

7.3 Verifiable Financials

- \$310,000 in Profits: Bank statements and customer-paid checks available as proof of real-world success.

8. Risk Management

8.1 Market Volatility

- Profit distributions in stablecoins or converted to fiat to ensure stability.

8.2 Regulatory Challenges

- Legal experts engaged to navigate regulations and secure necessary licenses.

8.3 Adoption Barriers

- Intensive education campaigns to bridge the gap between crypto and construction industries.

9. Conclusion

BESC Coin offers a unique opportunity to invest in a cryptocurrency backed by tangible, real-world revenue. With a proven track record of \$310,000 in profit within five months, BESC LLC demonstrates its capacity for sustainable growth and profitability. Through quarterly profit-sharing, reinvestment, and blockchain-backed transparency, BESC Coin provides consistent value to holders while supporting the expansion of BESC LLC.

The addition of the **BESC CEX** further strengthens the ecosystem, offering token holders opportunities to earn passive income and participate in new ICO projects. By combining real-

world profitability with blockchain innovation, BESC Coin is redefining the potential of cryptocurrency investments.
